

## Special Supplemental Benefits for the Chronically Ill Condition Verification

Special Supplemental Benefits for the Chronically Ill (SSBCI) are benefits offered to HAP Medicare Advantage members who have one or more qualifying conditions and who:

- Are at high risk for hospitalization or adverse health outcomes
- Require intensive care coordination

Qualifying conditions can be found on the next page. We verify eligibility for these benefits through claims data or provider attestation of the member's chronic condition.

HAP representatives or HAP Medicare Advantage members may contact provider offices directly for verification. Please see the table below for options.

Contacted By	Provider Office Options
HAP Medicare Advantage member	Complete the attached form.  You can also find the form when you log in at <b>hap.org</b> , select <i>Quick Links</i> , then <i>SSBCI verification</i> .
HAP Representative	<ul style="list-style-type: none"><li>• Provide information to the representative</li><li>• Ask representative to email you the form</li></ul>

If you have any questions, please email [RMT@hap.org](mailto:RMT@hap.org).

## Qualifying Conditions

- Chronic heart failure
- Chronic lung disorders (limited to: asthma, chronic bronchitis, emphysema, pulmonary fibrosis, pulmonary hypertension)
- Chronic and disabling mental health conditions (limited to: bipolar disorders, major depressive disorders, paranoid disorder, schizophrenia, schizoaffective disorder)
- Chronic alcohol use disorder and other substance use disorders
- Autoimmune disorders (limited to: polyarteritis nodosa, polymyositis rheumatica, polymyositis, systematic lupus erythematosus)
- Cancer (excluding pre-cancer conditions or in situ status)
- Chronic Cardiovascular disorders (limited to: cardiac arrhythmias, coronary artery disease [CAD], peripheral vascular, chronic venous thromboembolic disorder)
- Dementia
- Diabetes
- Chronic gastrointestinal disease
- Chronic kidney disease (CKD) (CKD requiring end stage renal disease (ESRD))
- Severe hematologic disorders (limited to: aplastic anemia, hemophilia, immune thrombocytopenic, purpura, myelodysplastic syndrome, sickle-cell disease [excluding having the sickle-cell trait], chronic venous thromboembolic disorder)
- HIV/AIDS
- Neurologic disorders (limited to: amyotrophic lateral sclerosis (ALS), epilepsy, extensive paralysis (i.e., hemiplegia, quadriplegia, paraplegia, monoplegia), Huntington's disease, multiple sclerosis, Parkinson's disease, polyneuropathy, spinal stenosis, stroke related neurologic deficit)
- Stroke

## Referral Management Team Authorization Request Form Special Supplemental Benefit for the Chronically Ill (SSBCI)

Special Supplemental Benefits for the Chronically Ill (SSBCI) are benefits that can be offered to HAP Medicare Advantage members who have one or more qualifying chronic conditions, who are at high risk for hospitalization or adverse health outcomes and who require intensive care coordination. Qualifying chronic conditions include, but are not limited to, cancer, cardiovascular disorders, chronic lung disorders, dementia, and diabetes. Please see reverse side for more conditions. These benefits are in addition to the benefits that traditional Medicare covers and can include non-primarily health-related benefits so long as there is a reasonable expectation of improving or maintaining the health or overall function of the member. HAP Medicare Advantage members are eligible for the benefit based on qualifying clinical criteria of a chronic condition as determined and provided by their physician.
