

Verification Required for HAP Medicare Diabetes and Heart (HMO C-SNP)

On January 1, we introduced our new plan—HAP Medicare Diabetes and Heart (HMO C-SNP). It's a Medicare Advantage plan specifically designed for individuals with certain chronic health conditions. Our plan focuses on:

- Diabetes Mellitus
- Chronic Heart Failure
- Cardiovascular Disorders
 - Cardiac Arrhythmias
 - Coronary Artery Disease
 - Peripheral Vascular Disease
 - Chronic Venous Thromboembolic Disorder

Ensure Your Patients Keep Their Coverage

Providers are required to verify their HAP Medicare Diabetes and Heart (HMO C-SNP) patient has been diagnosed with one or more of the chronic conditions above. If HAP doesn't receive verification within 60 days of the member's enrollment, the member will be automatically disenrolled.

How To Submit Verification

If an enrollee that is under your care brings you a *HAP Provider Verification of Chronic Condition* form or contacts your office regarding verification, be sure to complete our online form. Here are the steps:

- Log in **hap.org**.
- Select *More*.
- Select *C-SNP Chronic Condition Form*.
- Complete fields and submit.

Contracted providers are eligible for a \$250 incentive per completed form that is returned timely to HAP. Payment will be made quarterly. **Effective March 2, 2026, the incentive only applies to forms submitted using our online tool.**

For more information about this plan, visit **hap.org**.
