

Thank you, **St. Paul Lutheran**, for using the *Gifted for More Church Campaign*. The following report is based on the **141 members** of your faith community who used your unique church code when taking the *EveryGift Inventory*.

The first chart (pg 2) gives an overall look at what members self-selected as their top two gifts.

On page 3, the chart shows all of your congregation gifts based on the mastery levels of up to five gifts per person (not what they self-selected as their top gifts).

The following pages (4-15) breakdown the results for each of the 12 gift areas:

- The pie chart shows how many members registered a mastery score.
- The bar chart breaks down those with a mastery score into each of the three levels.

For the artistic and technical gifts, there is an additional chart:

- The word cloud represents the answers members wrote about their specific gift.

As you reflect on this report, here are some prompts to help process with your faith community:

- What new insight do you have about your congregation after looking through this report?
- How does seeing your congregation through a lens of "gifts" instead of "gaps" change your perspective?
- In order to fulfill your current ministry plans, what gifts do you need to cultivate within your congregation?
- In light of the gifts present in your community, what new opportunities are available for ministry?
