

# **FACULTY POSITION**

## **LECTURER IN APPLIED BIOLOGICAL SYSTEMS TECHNOLOGY**

**DEPARTMENT OF BIOLOGICAL AND AGRICULTURAL ENGINEERING  
UNIVERSITY OF CALIFORNIA, DAVIS**

Lecturer in Applied Biological Systems Technology. The Department of Biological and Agricultural Engineering at the University of California, Davis, seeks applications from qualified individuals interested in teaching courses that emphasize technology in agriculture including farm machinery principles, operation and practices, equipment and technology for small farms, engines, fabrication techniques with metal, wood and other materials, and related technologies for a broad range of students, and the teaching of agricultural mechanics for students in education credential programs.

Applicants should have a B.S. or equivalent in engineering, science, or a technology field and at least a M.S. or M.E. in a field related to agriculture such as agricultural and biological engineering, mechanized agriculture, precision agriculture, or agricultural education with emphasis in agricultural mechanics. A Ph.D. in biological and agricultural engineering or a related discipline is preferred. Additional qualifications and details can be found at <http://recruit.ucdavis.edu/>.

This Unit 18 position is covered by a collective bargaining agreement. We are interested in candidates who are committed to the highest standards of scholarship and professional activities, and to the development of a campus climate that supports equality, inclusion and diversity. The University of California is an affirmative action/equal opportunity employer with a strong institutional commitment to the achievement of diversity among its faculty and staff. We welcome all qualified applicants to apply, including women, minorities, veterans, and individuals with disabilities. UC Davis is a smoke- and tobacco-free campus.

Salary is commensurate with experience. Applications should be submitted online at <http://recruit.ucdavis.edu/> no later than **26 October 2019** to ensure consideration. Inquiries regarding the application process should be directed to Shaunte Hill, Biological and Agricultural Engineering Department, University of California, 1 Shields Avenue, Davis, CA, 95616, email [syhill@ucdavis.edu](mailto:syhill@ucdavis.edu). For questions concerning the position, contact the recruitment advisory committee chair, Prof. Shrinivasa Upadhyaya, at [skupadhyaya@ucdavis.edu](mailto:skupadhyaya@ucdavis.edu) (530-752-8770). For additional information about the Department of Biological and Agricultural Engineering and the College of Agricultural and Environmental Sciences, please see <https://bae.ucdavis.edu/> and <https://caes.ucdavis.edu/>.
