

## CONSTRUCTION PROJECT MANAGER

Are you someone who loves construction projects and likes seeing old spaces transformed into new, vibrant spaces? If so, you just may be a good candidate for our rapidly growing company. We are a real estate investment company seeking a full-time Construction Project Manager for our Columbus, Ohio area market.

We are seeking that person who is enthusiastic and compassionate about their work ethic. Your ability to oversee and coordinate multiple job sites throughout the Columbus and surrounding areas will give you the satisfaction that you are rebuilding and revitalizing your local community.

Candidate must have a good knowledge of home construction, obtaining and pulling building permits, and coordinating with the general contractor and subcontractors to keep a constant work flow at each property. The ability to ensure projects are on time and kept within budget is a necessity. You will display good communication skills to resolve any work permit issues or work stop issues, as well as keep in daily contact with your team. A week-ending summary update of all project progress is requested.

Your skills, knowledge and enthusiasm could make a great addition to our team. We offer a flexible schedule with occasional weekend availability and professional developmental assistance. Additionally, learn how to invest in real estate and create financial freedom for you and your family. A valid driver's license and phone is required. Compensation is results based.
