Description

[Share this job](#)

Get real, practical experience with managing contractors during your internship! At CS Energy, the Assistant Field Engineer (Construction Management Intern) will... attend job meetings with our team and our clients, work on buy-outs, submittals, write subcontracts, work with quantities, be involved in staging changes, and work with a team of Foremen, Engineers, Construction Managers and Project Managers. During this internship you will be given real responsibilities and many opportunities to learn about the construction side of the solar industry. **This position is 100% field based at a project construction site.** Projects will be located throughout New York (Albany, Ithaca, and Buffalo area), New Jersey and New England Region (MA, RI, NH, ME).

Decisions will be made by April 2nd, 2022.

Essential Duties and Responsibilities

- Responsibilities include assisting the Field Engineer and Operations Team with shop drawings, submittals, scheduling of sub-contractors and materials, meetings, as-built drawings, quality control checks (ie torque checks) and job costs.
- Position helps prepare an individual for opportunities in Project Engineering, Project Management, Construction Manager, Estimating and other career paths within the organization and industry.
- Individuals in these roles will report to their specified job site.

Requirements

- Pursuing a BS in Construction Management OR Renewable Energy
- Excellent Academic Credentials (GPA of 3.0 or higher)
- In 3rd or 4th year of academic study
- Excellent teamwork and strong communication skills (verbal & written)

- Track record of achievement
 - Valid Driver's License
 - Self-directed, organized and self-motivated to accomplish goals
 - Ability and desire to learn and progress within your position
 - Able to multitask and work in a fast-paced challenging environment
 - This position will be 100% at the construction site working in the field, must be okay being in the field
 - This position will require the assistant field engineer to perform manual quality torque checks using a wrench
- Working Knowledge of Word, Excel, and software

About CS Energy

CS Energy is an industry-leading renewable energy firm that develops, designs, and builds optimized projects in solar, energy storage, and emerging energy industries, with over 1.3 GW of solar and 300 MWh of energy storage projects installed across the US. CS Energy leverages strong relationships with solar developers, IPPs, utilities, off-takers, suppliers, and landowners to help our customers streamline the project development process, lower project costs, and create value for all stakeholders. Owned by American Securities, a leading US private equity firm, CS Energy has an experienced and committed management team and robust financial backing that enables us to be a trusted and long-term partner for our customers.

CS Energy has achieved its success through attracting and retaining highly talented and motivated people who are passionate about the company's success. We celebrate diversity in all areas of our company and are very committed to creating an inclusive environment for all employees. We are committed to doing right by our employees, our partners, and the communities in which we work so that everyone benefits from our

efforts. Our company's vision is based on the following principles: Safety, Quality, Integrity, Collaboration, Execution Expertise and Diversity.

Some of our recent notable team achievements are:

- Nations #1 commercial solar installer (Wood Mackenzie 2020)
- Nation's #10 solar EPC company (Solar Power World 2020)
- Best Places to work in New Jersey Award recipient (NJBIZ 2020 & 2021)
- Excellence Awards in safety for the past four years (Annual Governor's Occupational Safety and Health Awards Program)
- Entrepreneur of the Year, Matthew Skidmore (Ernst & Young 2020)

CS Energy is an equal opportunity employer
