Tinker Foundation 2020 Field Research Grants

The Tinker Foundation's Field Research Grants Program is designed to provide budding scholars with funds for travel to and within Latin America to conduct pre-dissertation research. These awards allow students to acquire a comprehensive knowledge of language and culture, familiarize themselves with information sources relevant to their studies, conduct pilot studies and preliminary investigations, and develop contacts with scholars and institutions in their respective fields.

- Grants are awarded for brief periods of no more than four months of **pre-dissertation research** in Latin America (Spanish and Portuguese speaking countries);
- Awards are open to all students **across all academic disciplines** and graduate degree programs;
