

ENGR 1195

Women in Engineering Seminar

SPRING 2021 | WEDNESDAYS 3 - 3:55 PM

Benefits of Enrolling in ENGR 1195 include:

- Meet other first-year students
- Exposure to COE and campus-wide resources
- Learn about diversity and inclusion in ways that are relevant to engineering
- Network with engineering professionals
- Access to peer and professional mentoring

This one-credit , synchronous, online course is designed to support first-year students during their transition to college and affirm their choice in engineering as both an academic major and future career path. Students interact with a community of presenters— current students, university faculty and staff, alumnae and industry partners – to learn about the successes and challenges women experiences as engineers. In addition, students participate in course activities designed to build leadership skills, as well as, an appreciation for how diversity and inclusion strengthen engineering practice.

To request entry into the course, visit go.osu.edu/engr_1195_sp21.

Deadline to apply is Friday, December 18.

For more information email Dr. G at jeter-bennett.1@osu.edu.
