

Registering family and athletes

- Go to your account and log in on usaswimming.org
- Click on the members tab, then dashboard
- You may have to update information and click save.
- You will see your name on the left side of the screen. On the right should be your child.
- Click view
- Upper right part of the screen select the area that allows you to set up their log in account. Mine was a red tab
- Go through all the steps to complete your child's personal log in.
- Once you complete this, they can click on the education tab and select the athletes icon.
- Then find the SafeSport for youth athletes. Make sure you select the course with the appropriate age range.
- Complete the course.

You can complete the same process to add other swimmers or spouses. Or you can see the other PDF's for additional assistance.
