

EXCLUSIVE Ultralight Limited-Edition PINK Color Run
By Ultralight Camera Solutions
September 2026

Attention Underwater Photographers:
Our Purple color run was so popular, now it's time to do PINK.

We're excited to officially open pre-orders for our limited-edition PINK color run at Ultralight Camera Solutions. After some recent posts, the overwhelming response to the next color run was PINK—and we couldn't be more excited to bring this custom color to life.

This special run is available for any part or kit currently listed on our website, so whether you're upgrading an underwater rig or dialing in a cinema setup, you can now build it in purple.

Pre-Order Here: Let us know what you would like and we will get back with confirmation on what products we can supply you in pink. Once confirmed and paid for, all sales will be final. Exceptions do apply-we must have the product in the natural raw aluminum state in order to be able to have it anodized in pink.

https://ulcs.com

Pre-orders close September 27th at Midnight (EST).

After doing the pink color run we plan to introduce more limited-edition color drops in 2027.

If you have any questions, feel free to email us at ulcs@ulcs.com. To make sure you are not left out, call 805 485 0233
