The Oceans of our World

Beneath the Sea 47th Anniversary Scuba Diving & Adventure Show

Beneath the Sea is proud and pleased to announce that Huish, the parent company of an assortment of manufacturers of outdoor products, will be exhibiting at Beneath the Sea 2026.

Following hard on their concept of “Fueling the human spirit for adventure,” they will display their line of products - Atomic, Oceanic, Stahlsac, Hollis, Zeagle, Bare - that connect people and their passion, with Huish products, together representing 150 years of design and use.

Beneath the Sea is pleased with Huish’ s commitment of support for our scuba diving and adventure exposition. By doing so, Huish takes its place amongst the dive industry’s leading manufacturers, resorts, certifying agencies, and travel industries, all seeking to speak to the New York Metro Area scuba divers and adventure seekers.

At Beneath the Sea, Huish will premiere three new products: Hollis custom rig builder, “The Crib ”, which will include a custom harness; The Oceanic Plus, the new smartphone underwater housing; and The Photon, a new Oceanic BCD. At the show will be the Hollis rebreather as well as a deep selection of products from Atomic, Zeagle, Bare, and Stahlsac.

Come, join us, this year’s Beneath the Sea exposition is our 47th anniversary show and has shaped up to be an outstanding weekend of seminars, equipment, and adventure enough to fulfill your expectations for the year to come.
