Susan Woolner, CPXP, Neuroscience Patient Support

Parking: Convenient no cost parking in the surface lots at 245 Cherry Street

The Neuro Cognitive Behaviors Caregiver support group is open to those caregiving for people with a variety of neurological conditions who, as part of the disease progression, may exhibit challenging behaviors. This includes people with advanced Parkinson's disease, Huntington's disease, frontotemporal degeneration, Alzheimer's disease or other non-specified dementias. Primary focus is peer support, strategies to help manage behaviors, education and training to help understand, support and de-escalate behaviors. **Light refreshments will be served.**

Mercy Health Hauenstein Neurosciences | 245 Cherry Street | Grand Rapids, MI 49503
