FAMU

COLLEGE OF PHARMACY + PHARMACEUTICAL SCIENCES INSTITUTE OF PUBLIC HEALTH

FLORIDA AGRICULTURAL AND MECHANICAL UNIVERSITY

VISION 2025

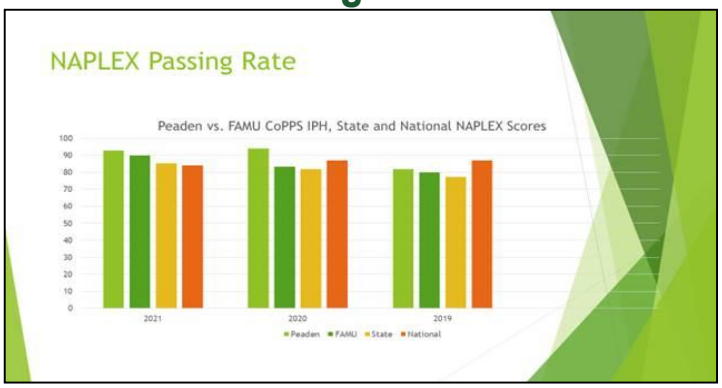

The Durell Peaden, Jr. Education Campus Rural Diversity Initiative 2022-2025

- Establish an immunization clinic in 2023 to assist the underserved population
- Establish the Bachelor of Science in Pharmaceutical Sciences (BSPS) by 2025

Economic Impact and Healthcare Outcomes Contributed by the Durell Peaden, Jr. Rural Pharmacy Education Campus in the Panhandle

Since its beginning in 2012, the Peaden Campus students, faculty and staff contribute significantly to the community in an amount approximating $1,000,000 annually. In return, our graduates contribute to the economy of the Panhandle in an amount exceeding $10,000,000. Graduates are pharmacy managers and clinical pharmacy specialists providing care to patients from Pensacola to Panama City. Faculty and students volunteer over 10,000 hours annually at low-income clinics providing care to the less fortunate consumers living in the Panhandle.

Peaden Campus v. State and National First Time Passing Rate

Our Success

In 2021, the Peaden Campus Learners achieved 93% on the National Board of Pharmacy Licensing Exam (NAPLEX), more than 8% points above the national average score. In 2020, our learners achieved 94.12% on the National Board of Pharmacy Licensing Exam (NAPLEX), surpassing all Florida Colleges and Schools performance and the national average by greater than 5% points. 100% hiring of our graduates by Residency Programs, retail drug stores, hospitals, and other institutions, locally and nationally, is a testament of the effectiveness of the program. Fifty-four percent of the graduates currently maintain pharmacy positions in the Panhandle of Florida. Florida A&M University and Community Health of Northwest Florida established a community pharmacy residency program as part of the Peaden Campus Campus Vision 2025, graduating the first resident in June 2022.

Our Community

Annually, our students provide approximately 4,500 to 5,000 hours of community service thousands of residents of Okaloosa, Santa Rosa, Walton, and Escambia counties. During the pandemic, our students were at the frontline administering COVID-19 tests and vaccines, telehealth, patient counseling and education, and MTM services to underserved patients in the rural communities in Pensacola and Crestview. Peaden Campus students participate in events to support cancer research, awareness, and screening for at risk populations.

Peaden Campus Charter Class of 2016

Our Goals and Our Impact

Our Students

- Improve the education and training of our students through the preservation of our distance learning technologies
- Provide financial support for internships and community service activities
- Provide affordable housing for more students to benefit from this outstanding education

Our Faculty and Staff

- Create more opportunities for development and the ability to maintain competitive salaries, develop advanced research, and improve quality of life

Our Building

- Provide of a welcoming and technologically advanced facilities that will retain students
- Continue to attract prospective students, and remain a staple for the Crestview community

Our Panhandle Community

- Continue the delivery of high-quality pharmacy services to the population living in the Panhandle of Florida
