

Wellforce/Amwell Medical Group Partnership to Help with COVID-19 Pandemic

Due to the Coronavirus (COVID-19) pandemic we are experiencing unprecedented patient demand for telehealth services. We expect this trend to continue for the foreseeable future as patients are turning to telemedicine in record numbers when seeking treatment.

Urgent care telemedicine is playing a critical role in the national response to the COVID-19 outbreak. Not only can these visits greatly minimize the demands on in-person care across the country; telemedicine can reduce unnecessary exposure to patients in waiting rooms as well as care teams.

We are currently looking for board-certified IM, FP, GP and EM physicians who are willing to pitch in and help during this time of crisis. This is a time when you use your skills to help your community/country, get going with minimal lift (and administrative burden), and get paid to do so.

[Learn how you can help.](#)

Onboarding is fast, easy and 100% online.

1. Complete the online registration online form. It takes less than 15-minutes.
2. We'll approve you started in 3-5 business days.
3. Our experienced onboarding team will guide you through our video-based training and connect for a brief 1x1 video check-in to ensure you're prepared to see your first patient online.
4. Practice online from home or the office with Amwell's highly rated and easy to use Telehealth Platform

Please help us treat patients by [signing up now](#).
