Microsoft Ignite 2025: The Rise of AI Agents

A New Agent-Powered Workplace

'Agent Mode' Comes to Office Apps

Specialised Autonomous Agents Arrive

New tools like the Sales Development Agent can independently research, qualify, and engage sales leads.

Introducing Agent 365: Centralised AI Governance

Manage, monitor, and secure all AI agents across your organisation from a single dashboard.

Enhanced Capabilities & Accessibility

AI Video Creation with Sora 2 Integration

Users can now generate AI videos directly from a text prompt within the Copilot experience.

Copilot Becomes More Accessible for SMBs

~£17 per user per month

For businesses with under 300 users

Understanding 'Work IQ'

The new term for the intelligent layer that gives Copilot secure, real-time access to your work context and data.
