

### **What is your calling? How can you make a difference in the world?**

- Are you where you want to be in life, at work, in your relationships? Are you searching for a job, a career or a vocation?
- You have the capacity to be and do more than you've ever imagined in your life and in your career.
- *With my support and experienced direction, you can cultivate your core talents and your unique calling.*

I have the gift of seeing people's potential. After an initial consultation and appropriate occupational preference assessments, we look together for those professional options where your values, interests and abilities intersect in a planned series of private two-hour sessions.

#### **Career Assessment Intensive**

Integrate the findings of these assessment tools and identify professional options where your values, interests and abilities intersect:

- Career Occupational Preference System (COPS)
- Enneagram Inventory
- Jungian Inventory

#### **Mission Statement Intensive**

Focus on finding and claiming your passion. Together, we work to:

- Recognize your core gifts and talents
- Confirm your special calling and integrity
- Access your deepest hopes and visions
- Write a personal mission statement

#### **Career Action Plan Intensive**

Design and implement a program accessing the most effective job search and market research methods for your career strengths and achievements. Through these sessions, you will:

- Take responsibility for your life direction
- Apply your mission statement to daily life and work
- Write a personal action plan to fulfill your calling
