

## **COVID-19 Risk Management Plans for Commercial & Multi-Family Properties** **- Now Available -**

We wish you and your families well in these unprecedented times. Over the past six weeks, we have spoken to and advised many of you as we navigate this ever-changing landscape. As is our cornerstone, our team continues to focus on protecting our clients and their assets and will continue to be your advocate throughout this process.

Over the last month, we have developed a SARS-CoV-2 Operations and Maintenance Plan (O&M) ready for customization to your building to help you protect your residents, workers, and employees while reducing fiduciary risk for owners, co-ops and condominiums, board members, lenders and management teams without excessive and unnecessary costs.

Lawrence ENV, LLC/RiskNomics LLC is pleased to offer the first **Coronavirus (COVID-19) Risk Management Plans for Commercial and Multi-Family Real Estate**. Plans include guidance on outbreak preparation, risk assessments, general and specific control measures, PPE, employee training, and cleaning/disinfection methodologies. Insurance implications will be included. In addition, recommendations to be taken prior to business reopening/recovery, along with SARS-CoV-2 premises testing criteria/sampling plans, will be detailed.

Please contact us today to discuss management guidance options and pricing plans.
