EAT SWELL - LIVE WELL

Having grown up in a family owned restaurant business, Naples Accelerator member Aidan Dillon has a passion for food. At the age of fourteen, he started making beef jerky with his Dad and has spent countless hours perfecting his craft. Aidan blended his love of the beach with his passion for food and created Swell Snacks. It seemed a natural progression to add craft, dehydrated fruits, vegetables and trail mixes to the product line truly making Swell Snacks a well-rounded, healthy snack food brand.

Swell Snacks is not a company just focused on making money, They're making money for a purpose—10% of the profit from every bag sold is going back to Weston Wood ranch, a local facility created to help people with disabilities live a happy life.
