The BuildNV.org website is a collaborative effort of the Nevada Construction Collaborative. This organization is made up of multiple construction industry organizations including AGC, BANN and WACA. BuildNV.org is designed to provide resources for anyone considering a career in Nevada's construction industry.

All Nevada Builders Alliance members have access to the resumes posted on the BuildNV.org website.

Contact [outreach@nevadabuilders.org](mailto:outreach@nevadabuilders.org) for your member-exclusive log-in credentials.

The **Nevada Builders Alliance** is a proud partner with **JOIN Inc.** in **WORKFORCE 60**. This innovative program is designed to enroll young adults, ages 18-24, from Nevada's rural counties, in occupational skills training that prepares them for fulltime employment. **Nevada Builders Alliance** and **Join Inc.** are working together in order to provide **WORKFORCE**

**60** clients with the skills demanded by our members in order to meet the increasing employment needs of our growing industry.

All **WORKFORCE 60** clients will be enrolled in training based on strict eligibility and suitability criteria, and are screened and assessed in terms of capabilities and aptitudes before interviewing.

The **Workforce 60** program can work for your company in several ways:

- If you are looking to hire, we can provide new employees who are pre-screened and ready for on-the-job training.
- If you already have a possible new hire who does not quite have the training he/she needs, you can refer them to Workforce 60 to develop the appropriate skills prior to hiring them.

**Nevada Builders Alliance** members who hire a **WORKFORCE 60** candidate will be reimbursed up to 75% of the employee's wages for up to 12 weeks of work experience with your company. This is an incredible incentive for your company and an opportunity to participate in preparing our next generation for long-term success in the workplace and in life.

For more information about **Workforce 60** contact :
