PrairieFire: Program Overview

PrairieFire, a two-year program of spiritual renewal, deepening and formation, provides a safe and sacred environment to allow the clearing of our inner terrain to promote new growth. In the safety of a community that provides support, resources and containment, we explore together our ways of thinking, our notions about God, and negative attitudes such as attachments, aversions, judgments, competition and expectations. We will discover how to remove the barriers of harmful thinking that keep us from knowing the truth of our divine natures as made visible in our ordinary lives. The result promises to be a deeper level of acceptance of self and others; a closer relationship with the Divine; increased congruence as our lives more fully express the wonder of oneness with the whole of creation; and a new commitment to live in heightened awareness of the presence and activity of the Divine accompanying us in the holiness of everyday life.

PrairieFire: Optional Third Year Practicum (Spiritual Director Training)

PrairieFire offers an optional third year practicum for those who seek to continue deepening their contemplative listening skills and to discern their personal ministries in the world. Meeting all the requirements of the practicum will lead to a certificate of completion in spiritual direction training.
