

Hello North Country Businesses-

We are all going to get through these unprecedeted times. I just want you know that we have our great local stations on the air and have full production services operating for you, should you need to get to get your message out. We have extremely low rates should you need to let people know you're open for business and if there are any changes in regards to hours, services you're offering and more. If you're an existing client contact your AE. We have streamlined the process and can handle your needs with ease for you. For new business -no cash in advance is required, you would be invoiced and can pay when you're business picks back up so you can concentrate on what you're there to do. Radio is ON.

If you're a new business to our stations I am here to help, and will get you in touch with our incredible staff to get be taken care of professionally and as quickly as possible. Please contact me. Thanks.
