CINCINNATI NAACP CONDEMNS RACIST AND OFFENSIVE TEXT MESSAGES

The Cincinnati NAACP vehemently condemns anyone involved with the racist and offensive text messages received by Black and Brown people in our community and around the country. There are provocateurs trying to invoke fear in the community with racial terrorism.

It appears to be coordinated and targeted harassment, to fan the flames of hate and divisiveness, by using messaging of a dark and shameful time in our nation's history. Unfortunately, this is the byproduct of unchecked and reckless rhetoric by someone who will once again be leading our country.

Hate and intimidation tactics have no place in our communities, and they will not work. We will not stand by in silence while members of our communities are targeted.
