

Four Great Reasons to Support the Sandpoint Junction Connector Project

*Pacific North West
Economic Region*

World Trade Center West
2200 Alaskan Way, Suite 460
Seattle, WA 98121

SAVE THE DATE: We will also be discussing the topic of the Sandpoint Connector and other infrastructure issues at the PNWER Annual Summit in Spokane, WA, July 22-26 at the Davenport Grand Hotel. Over 800 policy makers from the U.S. and Canada will meet at our Annual Summit. Topics will include Transportation, Energy and Economic Development. For more info go to www.pnwer.org

Learn the facts and support the Sandpoint Junction Connector Project

1. Promotes our Vibrant Idaho Economy

Trade is at the core of our growing Idaho economy and the Sandpoint Rail Bridge will allow it to flourish. Our transportation infrastructure is the lifeblood of hundreds of industries. Ranchers, farmers, manufacturers, distributors and more rely on a modern, efficient rail network to take their goods to market.

2. Reduces Delays and Improves Efficiency

Once completed, the Sandpoint Rail Bridge will ensure fewer crossing delays and less rail congestion. Not only will goods get where they're going quicker, but streamlined train traffic will lower the impact on surrounding communities and result in shorter wait times on nearby roads.

3. Global Trade Means a Brighter Future

The new Sandpoint Rail Bridge will help connect Idaho to the world. Our state is at the exciting crossroads of the Pacific Northwest and global trade, and handling increased shipping and commuter needs is an urgent priority. Investing in Idaho's infrastructure means investing in Idaho's future.

4. Protects Idaho's Pristine Environment

Idaho is a beautiful place and the Sandpoint Rail Bridge will help keep it safe and clean. Rail transport is four times more efficient than diesel-fueled semi-trucks that pollute our air and degrade our roads. It's the safest and most environmentally sound way to move freight by land.
