ALASKA PLASTIC RECOVERY

NEWSLETTER

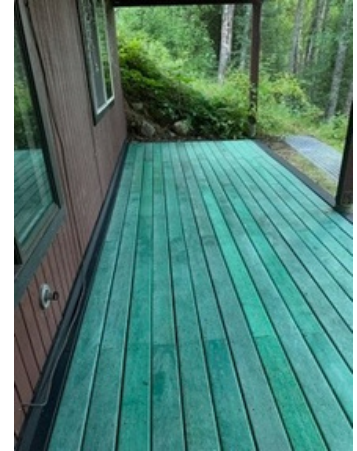

From Recycled Plastic to Long-Lasting Solutions What can you build with Grizzly Wood?

Every great project starts with an idea—and the right materials can make all the difference. For years, homeowners, gardeners, and builders have searched for an alternative to traditional lumber that can stand up to the elements without rotting, splintering, or requiring constant maintenance. That's where Grizzly Wood comes in. Made from recycled plastic, Grizzly Wood transforms materials that might otherwise end up in landfills into a durable, long-lasting product built to withstand Alaska's toughest conditions. Unlike traditional wood, it doesn't absorb moisture, so it won't warp, crack, or decay over time. Once installed, it requires little upkeep, allowing you to spend more time enjoying your project and less time repairing it. By choosing Grizzly Wood, you're not only investing in a product designed to last for decades—you're also supporting a circular economy that keeps recycling and jobs local.

What makes Grizzly Wood truly exciting is seeing the countless ways people have brought their ideas to life with it. Gardeners have built raised flower beds and sturdy greenhouse frames that can handle years of changing seasons. Homeowners have created beautiful decks, walkways, and patio spaces that stay strong without the headaches of traditional wood maintenance. Others have used Grizzly Wood for planter boxes, retaining walls, benches, outdoor furniture, and even agricultural and commercial applications where durability is essential. From a small backyard project to a large-scale installation, Grizzly Wood gives builders the confidence to create something sustainable, reliable, and built to last.

Grizzly Wood Decking

THE ALASKA ADVANTAGE

- ✓ Made from recycled materials
- ✓ Designed for durability in extreme weather
- ✓ Low maintenance
- ✓ Long-lasting performance
- ✓ Supports local recycling efforts

Build with a Purpose – Choose Grizzly Wood!

What is Grizzly Wood?

Grizzly Wood is a recycled plastic lumber that serves as an eco-friendly alternative to pressure-treated lumber. Unlike traditional wood, which is susceptible to rot, pests, and weather damage, Grizzly Wood is designed to last. It's made entirely from recycled plastics, diverting waste from beaches and landfills, giving it a second life in a durable, high-performance material.

2026 pricing!

Item	Description	Standard	2026
BLK-08-2x4	8-Foot Grizzly Wood 2x4	\$ 30.00	\$ 22.50
BLK-08-2x6	8-Foot Grizzly Wood 2x6	\$ 40.00	\$ 30.00
BLK-08-3x4	8-Foot Grizzly Wood 3x4	\$ 40.00	\$ 30.00
BLK-08-4x4	8-Foot Grizzly Wood 4x4	\$ 60.00	\$ 45.00
BLK-08-6x6	8-Foot Grizzly Wood 6x6	\$ 216.00	\$ 136.00
BLK-08-6x8	8-Foot Grizzly Wood 6x8	\$ 250.00	\$ 186.00
3FT-RPL-TBL	3 Foot Grizzly Wood Mini Picnic Table	\$ 400.00	\$ 400.00
8FT-RPL-TBL	8 Foot Grizzly Wood ADA Compliant Picnic Table	\$ 1,300.00	\$1,300.00
8FT-RPL-TBL	8 Foot Grizzly Wood Picnic Table	\$ 1,250.00	\$1,250.00
8FT-RPL-BNC	8 Foot Grizzly Wood Park Bench	\$ 1,750.00	\$1,750.00

All about Grizzly Wood!

Grizzly Wood Applications

Properties	Units	ASTM	Nominal Values
Density	g/cc	D1505	0.955
Tensile Strength @ Yield	psi	D638	>4,100
Tensile Modulus	psi	D638	255,000
Elongation @ Break	%	D638	>600
Elongation @ Yield	%	D638	9.8
Flexural Modulus	psi	D790	185,000
Flexural Stress @ 5% Strain	psi	D790	3,810
Vicat Softening Temp.	°C (°F)	D1525	123°C (253°F)
Heat Deflection Temp. 66 psi	°C (°F)	D648	75°C (167°F)
Compressive Properties 10% Strain	psi	D695	4,950
Brittleness Temp.	°C (°F)	D746	<-76°C (<-105°F)
Izod Impact Resistance	ft.lbs./in.2	D256	1.1
Screw and Nail Withdrawal	lbs	D1761	657 & 63
Tensile Impact	ft.lbs./in.2	D1822	115
Durometer	Shore D	D2240	68
Flammability	Rating	UL94	HB

Meets Industry Standards

Collections Update

Collections Update

We originally planned to reopen collections on May 1; however, due to unforeseen technical issues, we've had to delay our start date. We are now working toward resuming collections and will share an update as soon as we have a confirmed timeline. In the meantime, there are still meaningful ways to support Alaska Plastic Recovery. Incorporating Grizzly Wood into your projects directly contributes to our mission—each piece purchased helps divert several pounds of plastic from the waste stream and gives it a new, long-lasting purpose. We appreciate your patience and continued support as we work to get collections back up and running.
