

# Teammate Virtual Bingo

In this “bingo” activity, your task is to connect with your teammates to find answer to the questions stated in the frames below. The first team member to get 5 across, down or diagonally wins. But remember, keeping in contact with your teammates, and keeping each other’s spirits up during this pandemic is what really makes you a winner!

Rules are that you must contact team members for an answer to count. You can’t just guess or fill in a name if you already know an answer. A single team member cannot be used for more than 2 answer cubes. For an answer to count, fill in the team member’s name in the appropriate box.

Good Luck!!! (And feel free to get creative!)
