

Be smart, choose Strate!

Cougar pumps represent Strate Pumps in the UK.

Strate have a unique sewage pump system that does not clog up, as the solid debris never comes into contact with the pump impeller.

We currently have a demo unit to explain the simplicity and effectiveness of this sewage pump station.

If you wish to visit our Berkhamsted works, we are more than happy to demonstrate and offer quotations where necessary. We look forward to see you all!

Please contact us on sales@cougar-industries.co.uk to book a demonstration.

For more info on our services with Strate, visit <https://www.cougar-global.com/services-and-supplies/strate/>
