

# Ready for take-off?

When lockdown ends will your pumps work?

Will the heating pumps run?

If it's really warm you might need your chiller pumps!

We are currently taking bookings for service work into May and June of this year.

Whether it's hot or cold water, sewage systems or any of your other plant that needs a service to ensure a smooth re-opening of your business, NOW is the time to get it booked in.

Do let me know.
