

SEA YOU SOON!

If you are responsible for either shipboard, or dockside pumping equipment, then this message is for you!

I can help you with: -

- Bunkering oils
- On-board fresh water
- Reverse osmosis
- Waste water disposal
- Bilge pumps
- Heating or cooling circuits

Wherever you and your ships are in the world, Cougar can supply you with pumps and spare parts, anywhere and, of course, always on time!

Even if you don't have a ship, I would still love to hear from you!

Sea you soon...
