

HOW YOU CAN ACHIEVE 100% ITM COMPLIANCE AND PREDICTIVE RELIABILITY WITH PEERLESS FIRECONNECT®

Peerless FireConnect® is the first cloud-based solution capable of modernising any fire pump system, providing real-time, remote monitoring of your fire pump system whenever and wherever you need it.

THE COST OF UNCERTAINTY IN FIRE SAFETY

In large-scale industrial, commercial, and infrastructure projects, a fire pump is the last, most critical line of defence. Yet, managing a pump system's Inspection, Testing, and Maintenance (ITM) compliance can be complex, time-consuming, and prone to human error

Even a slight dip in performance can mean non-compliance, and catastrophic failure when it matters most.

Peerless FireConnect® is a revolutionary system that digitises your fire pump management. It is an integration of powerful hardware and cloud-based software, designed to give you complete visibility and control.

FireConnect® is the trusted, certified choice.

Don't miss the opportunity to learn more this technology and discuss how it can secure your assets and simplify compliance.
