

## SOLUTIONS TO SPARK YOUR INTEREST...

Partnering with world class manufacturer's enables us to guarantee you optimum products for your requirements.

We have excellent relationships with the very best, so you receive only the very best products.

Peerless pumps are proven with hundreds of thousands of single and multiple pump installations around the world.

Packaged fire pump systems built in a variety of configurations & materials to meet your needs. Packaged fire pump systems combine all the major equipment and accessories on to a single skid.

These systems greatly reduce the field construction and costs required to get your facility up and running quality.

Where we help: -

- Commercial buildings
- Industrial facilities
- Energy facilities
- Oil and Gas facilities
- Power plants
- Offshore applications

So, if you have a specific project you need advice on, or a tailored bespoke solution, Cougar are your choice.
