

Protecting Your Construction Sites

Denvergov.org/Police

Please report all suspicious activity immediately.

Call: 720.913.2000 or 911

No Trespassing

Contact your local community resource officer and complete a no-trespassing agreement and post no trespass signage. This allows officers to enforce trespassing laws after-hours when you are not present.

Light It Up

Ensure proper lighting is installed and functioning properly throughout the site and consider installing an alarm system or surveillance cameras.

Protect Heavy Equipment

Apply ID markings and record the serial number of all equipment. Remove keys to equipment not in use. Make use of theft prevention equipment, like wheel locks and install tracking systems.

1

Mark Your Property

Record serial numbers of tools & valuables and mark them with a unique serial number or marking. You can also register your property at www.reportit.leadsonline.com

2

3

Secure Tools & Materials

Lock all tools and materials, out of sight, when they are not being used.

4

5

Know Who To Contact

Post emergency contact information in a conspicuous place.

6

7

Have A Meeting

Review these crime prevention tips with ALL people who will be on the construction site, such as employees, subcontractors, ect.
