

# THE *Art* OF *Healing*

Family Enhancement Center

STRONG FAMILIES, SAFE KIDS

SPONSORSHIP COMMITMENT

## April 2022

Every April, The Family Enhancement Center hosts an annual fundraising campaign in recognition of Child Abuse Awareness & Prevention Month. This Spring's theme is "**The Art of Healing.**" Throughout the month we will be sharing...

- Personal stories & artwork made by the youth we serve
- Testimonials from staff about the specialized programs we offer
- Child abuse education & prevention resources, and
- Words of affirmation from our many supporters

Make sure to follow along on our [Online Giving Page](#), launching Friday, April 1st.

This month-long campaign will end with a special celebration! April 23rd to April 29th, FEC is hosting "**The Art of Healing**" art exhibition at Powderhorn's Modus Locus gallery. Accessible in-person and virtually, this exhibition will showcase works of art created by the teens in our "Drum Beat" and "Healing Motion" group therapy programs.

Help us celebrate their journey of hope and healing this Spring by making a **sponsorship commitment**. All financial gifts to FEC's "Art of Healing" fundraising campaign, directly supports our programs & services.

## Empowering Our Young People

Your support helps young girls like Nichole. When she came to our agency at fifteen-years-old Nichole was a "ball of nerves and anxiety" – struggling with the shame, sadness and anger she carried from her past experience of sexual abuse. By utilizing creative art and movement practices in therapy, she was able to process her trauma, learn how to cope, and embrace a stronger sense of self.

**"I tell everyone that FEC changed my life... I know I had to do the work, but with their help, I was able to chart a course and navigate one of the most painful experiences of my lifetime. My family put itself back together, with the help of Libby and her team."** -Nichole, former client

In 2022, with your help, we can create more success stories like Nichole's! Especially after this past year, there are so many young people needing extra mental health services right now. Access to movement-based art therapy, teen mentorship, and parent education has the power to break the cycle of abuse. Let's make a bright future possible for our families & kids on their path to healing!

Are you interested in becoming an "Art of Healing" sponsor this Spring?

Take a look at the next page to learn more.
