MISSISSIPPI DIVISION OF MEDICAID

BIN/PCN changes for MississippiCAN and CHIP plans effective October 1, 2018

The Mississippi Division of Medicaid (DOM) has required the MississippiCAN Coordinated Care Organizations (CCOs) to obtain unique Bank Identification (BIN), now known as Issuer Identification Number (IIN), and Processor Control Number (PCN) combinations. The purpose of this requirement is to enable pharmacy providers to identify and separate Pharmacy Benefit Manager (PBM) lines of business in their front-end claims processing systems.

 In addition, the CCOs were required to obtain unique Network Reimbursement ID numbers for each of their Medicaid lines of business. The purpose of this requirement is to ensure that the PBM's paid claims will not be intermingled on the same remittance advice statements. The National Council for Prescription Drug Programs (NCPDP) field associated with the Network Reimbursement ID is 545-2F. DOM will require this Network Reimbursement ID to be returned on the D.0 claim response as well as the ASCX12 835 electronic pharmacy remittances.

Both of these requirements will allow proper and adequate audit and claims processing oversight for DOM.

There will be no changes in the billing process for fee-for-service beneficiaries.

Providers should prepare their software billing systems to use the following BIN/PCN numbers for claims with dates of service of Oct. 1, 2018, and forward as follows:

Magnolia Health MSCAN (RxAdvance):

BIN	020545
PCN	RXA371
RXGROUP	RXGMSSTD
Network Reimbursement ID	RXA371

Magnolia CHIP (RxAdvance):

BIN	020545
PCN	RXA372
RXGROUP	RXGMSCHIP

About Mississippi Division of Medicaid

Medicaid is a state and federal program created by the Social Security Amendments of 1965, authorized by Title XIX of the Social Security Act, to provide health coverage for eligible, low income populations. In 1969, Medicaid was enacted by the Mississippi Legislature. All 50 states, five territories of the United States and District of Columbia participate in this voluntary matching program. The mission of the Mississippi Division of Medicaid is to responsibly provide access to quality health coverage for vulnerable Mississippians, by conducting operations with accountability, consistency and respect.
