www.hfsconsultants.com

Conveners:

Dr. John Mitchell, Director, Office of Mississippi Physician's Workforce

Tim Moore, President & CEO, MS Hospital Association

Janice Sherman, CEO, MS Primary Health Care Association

DRAFT AGENDA CONTENT

- I. State of the State - An opening talk to discuss the current trends and future outlook as it pertains to clinical workforce training program development in Mississippi. Review of survey monkey responses from FQHCs and Hospitals.
- II. Models Discussion - Kiki + a senior leader at an FQHC with experience in running a robust medical residency program. In the past, brought in Dean Germano, as he has led Shasta CHC there (one of the projects worked on in the past) for this portion. May consider bringing him in again, or others - or getting someone from our region, for the local touch. Here is more on Dean, FYI: <https://www.shastahealth.org/c-dean-germano>
- III. Hospital Partnership - This section outlines the optimal elements of CHC-hospital partnerships - the what, how, why, etc. We could look at a few folks in the country, or again, take a look at individuals local to your region.
- IV. Accreditation - Kiki + FQHC residency program director (can bring in someone or local, again) to discuss accreditation requirements
- V. Financing - Kiki - exploration of various financing models for residency
- VI. Closing - Kiki - wrap up.
