

Dear Senator [Last Name],

I am writing as a concerned member of the community regarding the recent testimony before the Senate Judiciary Committee in which a false and harmful claim was made alleging that Israel is harvesting skin from Palestinians. This accusation echoes a longstanding antisemitic blood libel trope and has no place in serious public discourse. I respectfully urge you to decisively and publicly condemn this language and reaffirm that antisemitism and hate speech will not be tolerated in our state legislature. Clear moral leadership at this moment matters deeply to our community. We deeply appreciate the community's attention to this matter and the proactive engagement so many of you have already shown. Your voices, solidarity, and support are vital to ensuring that hateful and unfounded rhetoric does not go unanswered.

Sincerely,

[YOUR NAME]
