

Stanford Roses along El Camino Real

It is a privilege to be part of the team G, and take care of the beautiful red roses on El Camino Real's fence line. The area begins at Stanford Ave all the way to Quarry Rd. I used to drive by before working at Stanford, and said to myself who takes care of the roses that's a lot of them. Now I'm happy to be one in the team members to take care of the roses. I appreciate the hard work from team G. Please, when you get a chance, walk or drive by to see the beautiful roses. Always smell the roses, you won't be disappointed!
