

Stanford campus is a GREAT place to visit

Travel and leisure say Stanford is rated # 1 campus to visit.

Every day/ month brings a different vision as you turn the corner the buildings, landscapes, and many smiles from students, staff and many visitors.

Mid November Fall has arrived

Leaves are changing incredible colors, Ginkgo, Pistache, Maples and many Sycamores trees. To see the students come out of class at Thorton and see the Pistache trees changing and pulling their phone cameras out to snap away pictures and talking between themselves of the beauty is priceless.

We are so lucky to walk through and see all the joy and smiles all the department contributed to. Stop, smile and enjoy the color of all the leaves on campus. Now is the time to put all the plants to sleep to refresh for next year. Prune the roses hard, clean leaves and prune hedges down. Brown is the new green we were going way back to invigorate for next year . Spring will bring on more beauty and work, and peace no rest between.

Enjoy the holiday and visiting campus.
