

Share the Road Webinar—Getting Around the Campus & SRWC Safely

Join us for a free [Share the Road](#) webinar on **Wednesday, Nov. 10, from 12 to 12:30 p.m.** and learn how to share the road and get around safely at Stanford main campus and SRWC.

Learn valuable bike safety and life-saving tips, including these:

- How to navigate roundabouts as a bicycle rider, pedestrian and motorist.
- How to be alert, prepared, and respectful of all road and path users wherever you are riding
- How to ride safely around Marguerite buses and other transit systems, including why you should always keep at least three feet of distance between you and the bus.

Cyclists, motorists, micromobility (skateboards/scooters) and mobility device users are welcome.

Learn from experts: Our safety partners at Stanford's Department of Public Safety, Marguerite bus service, and Diversity and Access Office will share information on how to be responsible and respectful of fellow bicyclists, pedestrians, micromobility device users, and motorists.
