

President Biden,  
take action now  
to build back  
**BOLDER** for  
**abortion**  
**justice!**

Low-wage workers, immigrants, BIPOC communities are bearing the brunt of the economic fallout of the pandemic, as well as ongoing systemic racism. Since taking office, President Biden has taken first steps to address the harm, but when it comes to abortion justice, there is so much more to be done.

Massive barriers to abortion care—like the Hyde Amendment and medically unnecessary restrictions on medication abortion care—are exacerbated by systemic racism, economic insecurity, and immigration status.

No one should be denied abortion coverage because of where they live, how much money they earn, or how they get their health insurance. And people seeking abortion care should be able to receive their prescribed medication abortion in the way that makes the most sense for them, whether that is at a health center, their local pharmacy, or delivered to their home.

Tell President Biden to take immediate action so people of color working to make ends meet can get the abortion care they need >>
