

IT'S NOT TOO LATE to apply for fall 2017 enrollment!

The **Institute of Agricultural Technology (IAT)** delivers innovative, two-year educational certificate programs that are designed to address industry needs in Michigan and beyond. Students learn “best by doing,” so IAT programs are built on the concept of hands-on-learning. IAT programs develop career-ready graduates through intensive, practical learning and skill

enhancement in agricultural, environmental, and applied technologies. Certificate programs are offered **on the campus of Michigan State University in East Lansing** and **in partnership with several Michigan community colleges**.

For more information about the certificate programs and locations visit **www.iat.msu.edu** or **517-355-0190**.
