Danish Judging System: Each project is evaluated against a set of standards. Those that meet the highest standards (scores of 90-100) receive an 'A' award. Those that are very good (scores of 80-89) receive a 'B' award. Those that are good (scores of 70-79) receive a 'C' award. Because projects are compared to a standard, rather than to other projects, there is no limit to the number of projects receiving any given award. If all entries are judges to be excellent, all receive an 'A' award. Peer competition is only used afterwards to award "Best of Show" rosettes.
