Kari-Out

food & packaging to go

January 11, 2021

Dear Kari-Out Customers

Kari-Out continues to thrive in meeting our customers' expectations and to be the supplier of choice by offering competitive pricing in the market.

At this time, our suppliers of Polypropylene (PP) resin have announced significant cost increases effective immediately. Additionally, the market for PP resin has tightened. While we have secured our needs for PP resin, it has come at the increased costs. Kari-Out has no choice but to immediately increase our PP packaging items.

Effective February 11, 2021, there will be an increase of 11% on all Polypropylene containers

POD agreement prices will also be increasing effective February 11, 2021

All orders placed on or after February 11, 2021 will be invoiced at the new prices. All orders placed before February 11, 2021 calling for immediate shipment will be honored at the pre increase prices. Kari-Out reserves the right to limit quantities to no more than your "average" monthly usage.

We would not bring such a price increase to you unless it was necessary. As always, we greatly appreciate your valued business and support.

Thank you for your understanding and continued support.

Sincerely,

Scott Rabidou
