MAR 01 2021

To Our Valued Customers,

We continue to experience escalation in our raw material, manufacturing, and transportation costs. Despite our best efforts to control these costs we, unfortunately are in a position where it is necessary for us to pass on a price increase.

Therefore, we are announcing a price increase for all orders placed on and after March 25th, 2021 respecting our standard five (5) day order to ship lead time. This increase will affect any and all shipments which take place on and after April 1st, 2021. No exceptions will be allowed to shorten the standard lead time.

Increases are as follows:

- All PET Products 6%
- All PP Products 18%

All orders shipped prior to April 1st, 2021 must be limited to normal stocking requirements. In addition, all contracted business will increase per the terms of the agreement.

We understand the impact that this is having on the market and are committed to providing the high service and quality levels that you have come to expect from Inline Plastics and appreciate your continued support of our products during this time.

Please do not hesitate to reach out to me if you have any questions.

Best Regards,

Thomas M. Schleicher

Vice President- Sales and Marketing
