

THE "EVERYTHING ELSE" PRINTER

Inkjet Technology Licensee

Printware

Benefits

Exceptional Color Print
Leveraging trusted HP PageWide technology and pigment-based CMYK ink set, the Titan delivers vibrant color images on a wide variety of porous materials. With precise ink drop placement & 1200 X 1200 DPI resolution, the Titan printer consistently delivers sharp text and graphic images in both color and black print, accommodating print images up to 11.7 inches in height

Complete System Integration
The Titan print system features a tight integration with a BK feeder & rugged BK7IB transport base for consistent product feeding, easy maintenance and minimal system downtime.

Robust, User-Friendly Design
Mounted on a solid printing platform with aluminum extrusions to deliver outstanding printer stability, accurate product adjustment height settings, and permits ease of movement between the print and park positions.

Effortless Maintenance
The innovative "Bar-in-the-box" imager module simplifies maintenance with its easy slide-in, slide-out design. This all-in-one module houses the ink supply and print heads, making upkeep straightforward and efficient.

Advanced Software
Software includes convenient user selectable operating mode settings to quickly change image resolution and production speed. Choose from High Resolution, or Production mode to ensure you are getting the best print possible to match the production speeds you require.

What can you print on?

Corrugated Cardboard

Applications: Shipping boxes, retail display boxes, & e-commerce packaging.
Advantages: Corrugated cardboard material is absorbent, allowing for vibrant colors & sharp text with water based inks.

Paperboard

Applications: Folding cartons, cereal boxes, & consumer goods packaging.
Advantages: A common substrate for packaging due to its smooth surface & absorbency.

Kraft Paper & Recycled Material

Applications: Paper bags, wrapping paper, & eco-friendly packaging.
Advantages: With its natural brown color, Kraft paper is often used for eco-friendly packaging

Labels and Stickers

Applications: Product labeling, shipping labels, & promotional stickers.
Advantages: These can be used on bottles, jars, & other packaging items.
