#### **NOTICE TO PARENT/LEGAL GUARDIANS**

The School Board of Orange County, Florida ("OCPS") offers a variety of athletic sports activities to registered students and endeavors to have each high school and middle school be an active member of Florida High School Athletics Association in order for student athletes to participate in sanctioned sport competitions. By signing this agreement, the parent/legal guardian understands and agrees that there are inherent risks associated with the named child participating in sports activities: including but not limited to pre-season conditioning, scheduled practices, scrimmages, games, competitions, and regional and state championships, and hereby gives permission for his/her child to participate in sports activities as a student athlete.

#### NOTICE OF RESPONSIBILITY OF STUDENT ATHLETE AND PARENT/LEGAL GUARDIAN

As the parent/legal guardian of the student athlete who will be participating in sports activities held by OCPS athletic programs, the parent/legal guardian understands and agrees to the following rules and responsibilities:

#### Qualifications to Participate

- a) Sports Screening Physical Exam of student athlete is required and the results shall be provided to the school athletics department designee (usually the Athletic Trainer) annually in accordance with FHSAA rules and guidelines. Physicals must be performed by a medical provider licensed in the State of Florida. Athletics may prevent student from participating if all required paperwork is not received 48 hours prior to deadline/try-outs.
- b) Attendance to all practices and games, including timely arrival and coming prepared, is a commitment by the parent/legal guardian and student athlete to his/her team, school, and the sport. Student Athlete and Parent/Legal Guardian agree to follow school directives regarding the child's participation in the sports activities.
- c) Arrival and Departure from sports activities is the responsibility of the parent/legal guardian, unless specific OCPS designated transportation is provided. Parent/Legal Guardian waives, releases and holds harmless OCPS, its employees and volunteers from any liability arising from OCPS releasing the student athlete from the sports activity for individual return to home, whether his/her method and means is by foot, bicycle, motor vehicle or other various means by him/herself, friend, relative, or other persons at the student athlete's discretion.
- d) Student's eligibility to participate in sports activities shall be determined by the school administration, in accordance with OCPS Student Code of Conduct, including but not limited to, the student athlete maintaining satisfactory grades, appropriate behavior, and compliance with team rules.
- e) Report immediately to OCPS Athletic Trainer or Athletic Director any and all injuries, changes in medical conditions, and/or medical treatments that occurred as a result of student athlete participating in sports activity or that may affect their ability to continue to participate in sports activity. Upon request, student athlete will seek medical treatment and provide OCPS with medical provider records on eligibility to participate in sports activity. Participation in any sport activity may be withheld by OCPS at any time deemed appropriate and the student shall not be allowed to resume sport activity without satisfactory medical provider note or records.
- f) If any sports document, physical exam form, or signature on such document has been falsified, misrepresented, or intentionally excluded, student athlete shall be immediately suspended from sports team and declared as

ineligible status from all sports. Ineligible status and sport suspension shall be effective for one calendar year from the date of disclosure.

#### PERMISSION AND RELEASE FOR STUDENT ATHLETE

As the parent/legal guardian of the student athlete who will be participating in sports activities held by OCPS athletic programs, parent/legal guardian understands and agrees to the following:

#### Permissions and Releases

- a. Permission is granted for appropriate OCPS employee to render medical treatment to student athlete or OCPS employee to contact and authorize medical treatment by a third party first responder, nurse, physician or hospital in the event an injury occurs during a sports activity. Parent/Legal Guardian waives, releases and holds harmless OCPS, its employees and volunteers from any liability arising from such medical treatment.
- b. Authorization to release student athlete's medical records to/from OCPS is granted in order to coordinate sports related treatment with treating medical provider(s). This authorization may be cancelled in writing at any time. A cancellation will not change releases that happen before receipt of the cancellation. Parent/guardian releases and holds harmless OCPS from any liability resulting in the use and disclosure of received and disclosed medical records/information.
- c. Permission is granted to OCPS the right to photograph and/or videotape student athlete and further use of name, likeness, voice, and appearance in connection with publicity, advertising, promotional materials without reservation or limitation.
- d. Parent/legal guardian affirms that the student athlete has no other medical condition, prior medical treatment, including but not limited to surgery which may affect or limit the student athlete from actively participating in sports activities.
- e. Parent/legal guardian waives, releases and holds harmless OCPS, its employees and volunteers for any activity the student athlete may voluntarily participate in with the team (in uniform or not), including but not limited to fund raisers, parades, promotions, team building, public appearances, etc.
- f. By signing this form, I agree that I am giving up my child's right and my right to recover from OCPS and its Board Members, employees and agents, in a lawsuit for any personal injury, including death, for any claim based upon the negligence of OCPS, including any claimed negligence by OCPS in allowing my child to participate in any sport or for any claimed negligence by OCPS regarding the care of my child during practices or games when any injury or illness arises out of or relates in any way to my child's participation in sport.
- g. FHSAA's "Consent and Release from Liability Certificate" signed by the parent/legal guardian includes the release of "The School District" which shall apply to The School Board of Orange County, Florida, its elected officials, employees and volunteers and "School" shall be the OCPS school for which the student athlete is registered and participating in sports activity.

I hereby acknowledge and certify that I have read this document in its entirety; reviewed and explained the terms with my child/ward; understand and agree to be bound by the terms on behalf of myself and my child/ward.

Concussion	Information	,		_	

#### **Concussion Information**

Concussion is a brain injury. Concussions, as well as all other head injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can't see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a "ding" or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

#### Signs and Symptoms of a Concussion:

Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- · Vacant stare or seeing stars
- · Lack of awareness of surroundings
- Emotions out of proportion to circumstances (inappropriate crying or anger)
- · Headache or persistent headache, nausea, vomiting
- Altered vision
- · Sensitivity to light or noise
- · Delayed verbal and motor responses
- Disorientation, slurred or incoherent speech
- Dizziness, including light-headedness, vertigo(spinning) or loss of equilibrium (being off balance or swimming sensation)
- · Decreased coordination, reaction time
- · Confusion and inability to focus attention
- · Memory loss
- Sudden change in academic performance or drop in grades
- · Irritability, depression, anxiety, sleep disturbances, easy fatigability
- In rare cases, loss of consciousness

#### **DANGERS** if your child continues to play with a concussion or returns too soon:

Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called "Second Impact Syndrome" where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

#### Steps to take if you suspect your child has suffered a concussion:

Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child's coach if you think that your child may have a concussion. Remember, it's better to miss one game than to have your life changed forever. When in doubt, sit them out.

#### Return to play or practice:

Following physician evaluation, the *return to activity process* requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an AHCP.

For current and up-to-date information on concussions, visit http://www.cdc.gov/concussioninyouthsports/ or http://www.seeingstarsfoundation.org

#### **Statement of Student Athlete Responsibility**

Parents and students should be aware of preliminary evidence that suggests repeat concussions, and even hits that do not cause a symptomatic concussion, may lead to abnormal brain changes which can only be seen on autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the development of Parkinson's-like symptoms, Amyotropic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long term memory issues that may be related to concussion history. Further research on this topic is needed before any conclusions can be drawn.

I acknowledge the annual requirement for my child/ward to view "Concussion in Sports-What You Need to Know" at www.nfhslearn.com. I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coaches associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.

# Consent and Release from Liability Certificate for Sudden Cardiac Arrest and Heat-Related Illness (Page 3 of 4)

This completed form must be kept on file by the school. This form is valid for 365 calendar days from the date of the most recent signature.

<b>School:</b>	School District (if applicable):	

#### **Sudden Cardiac Arrest Information**

Sudden cardiac arrest is a leading cause of sports-related death. This policy provides procedures for educational requirements of all paid coaches and recommends added training. Sudden cardiac arrest is a condition in which the heart suddenly and unexpectedly stops beating. If this happens, blood stops flowing to the brain and other vital organs. SCA can cause death if it's not treated within minutes.

Symptoms of sudden cardiac arrest include, but not limited to: sudden collapse, no pulse, no breathing.

Warning signs associated with sudden cardiac arrest include: fainting during exercise or activity, shortness of breath, racing heart rate, dizziness, chest pains, extreme fatigue.

It is strongly recommended all coaches, whether paid or volunteer, are regularly trained in CPR and the use of an AED. Training is encouraged through agencies that provide hands-on training and offer certificates that include an expiration date.

Automatic external defibrillators (AEDs) are required at all FHSAA State Series games, tournaments and meets. The FHSAA also strongly recommends that they be available at all preseason and regular season events as well along with coaches/individuals trained in CPR.

#### What to do if your student-athlete collapses:

- 1. Call 911
- 2. Send for an AED
- 3. Begin compressions

#### **FHSAA Heat-Related Illnesses Information**

People suffer heat-related illness when their bodies cannot properly cool themselves by sweating. Sweating is the body's natural air conditioning, but when a person's body temperature rises rapidly, sweating just isn't enough. Heat-related illnesses can be serious and life threatening. Very high body temperatures may damage the brain or other vital organs, and can cause disability and even death. Heat-related illnesses and deaths are preventable.

Heat Stroke is the most serious heat-related illness. It happens when the body's temperature rises quickly and the body cannot cool down. Heat Stroke can cause permanent disability and death.

Heat Exhaustion is a milder type of heat-related illness. It usually develops after a number of days in high temperature weather and not drinking enough fluids.

Heat Cramps usually affect people who sweat a lot during demanding activity. Sweating reduces the body's salt and moisture and can cause painful cramps, usually in the abdomen, arms, or legs. Heat cramps may also be a symptom of heat exhaustion.

#### Who's at Risk?

Those at highest risk include the elderly, the very young, people with mental illness and people with chronic diseases. However, even young and healthy individuals can succumb to heat if they participate in demanding physical activities during hot weather. Other conditions that can increase your risk for heat-related illness include obesity, fever, dehydration, poor circulation, sunburn, and prescription drug or alcohol use.
