

Dear Network Members,

We will have a 1-hour virtual meeting to discuss findings from the COVID-19 studies done through the Network. The meeting will be held virtually via Zoom on 05/21/2021 at 12 noon CT. The first 30 minutes will be Lightening talks (pre-recorded 5-minute presentations) by the COVID-19 study Principal Investigators. This will be followed by an open panel discussion to discuss the following:

- PIs of studies share collective COVID-19 study conduct experiences and study results with the audience
- Discuss possible opportunities for linkages between all of the National Dental PBRN COVID-19 studies
- Identify opportunities and challenges/barriers faced by these studies' investigators
- Identify future potential collaborations among the studies' investigators and the network's practitioners
- Disseminating activities/strategies for results from these studies and for improving everyday clinical practice

Following this discussion, there will be a Question & Answer session with the study PIs. Practitioners are welcome to post their questions on the chat box and select questions will be posed to the study PIs.

We are hopeful that you are interested in participating in this event. If you have any questions, please do not hesitate to contact Dr. Allareddy ([sath@uic.edu](mailto:sath@uic.edu)).
