

Cover Crop/No-Till Survey – 2020

Your Name (optional): _____

Farm Address (optional): _____

If you don't list address, please list at least township and county: _____

Is your farm in Chesapeake Bay watershed? **yes** or **no** (circle one). If no, is it Ohio or Delaware? (circle one)

**** Note: If you previously completed this survey you only need to complete activity for the 2020 crop year****

Categories for COVER CROP acres: (with particular interest in NEW acres since 2016, but baseline acreage prior to 2016 is useful information)	Approx. date planted each year (ex. Sept 15)	Baseline: Acres in cover crops prior to 2016	NEW acres in 2016 (didn't have cc in 2015)	NEW acres in 2017 (didn't have cc in 2016)	NEW acres in 2018 (didn't have cc in 2017)	NEW acres in 2019 (didn't have cc in 2018)	NEW acres in 2020 (didn't have in 2019)
Early-planted cereal rye							
Late-planted cereal rye							
Early-planted other single species covers							
Late-planted other single species covers							
Early-planted mixed species covers							
Late-planted mixed species covers							
Harvested for forage							

Categories for IMPROVED cover crop acres	IMPROVED acres in 2016 (improved over 2015)	IMPROVED acres in 2017 (improved over 2016)	IMPROVED acres in 2018 (improved over 2017)	IMPROVED acres in 2019 (improved over 2018)	IMPROVED acres in 2020 (improved over 2019)
EARLIER cereal rye (at least 2 weeks earlier than typical)					
EARLIER other single species (2+ weeks earlier than typical)					
Shifting to mixed species cover crops from single species					
Other: Describe					

<u>NO-TILL ACRES:</u>	Baseline: Acres NT before 2016	NEW NT acres in 2016	NEW NT acres in 2017	NEW NT acres in 2018	NEW NT acres in 2019	NEW NT acres in 2020
IMPROVED No-Till Acres	N/A	Improved NT Ac 2016	Improved NT Ac 2017	Improved NT Ac 2018	Improved NT Ac 2019	Improved NT Ac 2020
