

**One Pigeon  
is no problem...**

**The problem is...**  
**There's**  
**No Such Thing**  
**as One Pigeon!**

**OvoControl® P**

(nicarbazin 0.5%)

**Birth Control for Pigeons**

(EPA Reg. No. 80224-1)

## **Pigeons Breed Rapidly**

Just five mating pairs can produce up to 400 pigeons in only two years.

Don't let your pigeon flock get out of control.

**Humane  
World for  
Animals™**

***“We encourage the use of contraception as a safe and humane management tool for pigeons.”***

## **Pigeons have a short life-span**

Feral pigeons in an urban environment typically have a life-span of just 2 to 3 years.

# Birth Control for Pigeons

Fed to birds once-a-day, **OvoControl® P (nicarbazin 0.5%)** interferes with egg fertilization, causing the population to shrink. The cost-effective and humane technology is especially useful for managing pigeon flocks in larger areas where physical exclusion is either impractical or cost prohibitive.

- ✓ Ready-to-use contraceptive bait
- ✓ Designed specifically for pigeons
- ✓ Pigeons are quickly conditioned to the baiting rooftop and ground placement
- ✓ Typical sites lose 50% of the treated birds, annually

## Pigeon Bait

Registered By EPA / REG. #80224-1

# OvoControl® P is easy to use

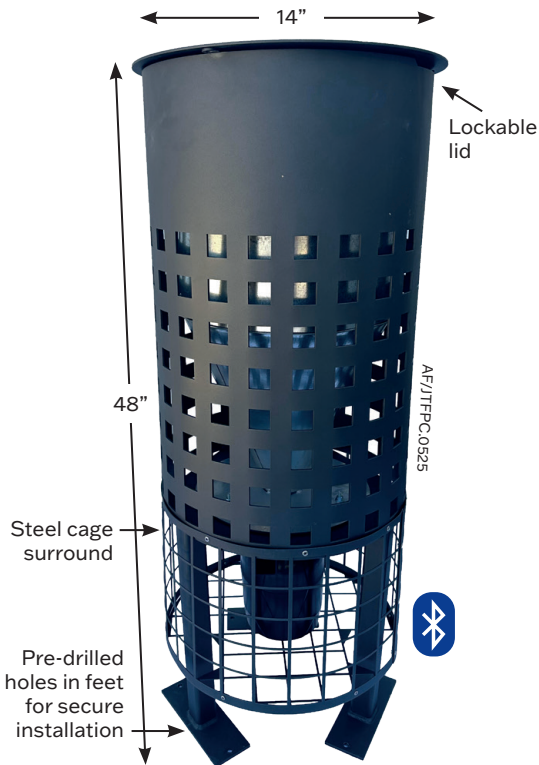

Since fewer birds are hatching, the population declines naturally and continuously through attrition. Instead of increasing mortality, **OvoControl® P** reduces reproduction, a sustainable solution for longer-term pigeon control.

- ✓ Cost effective and humane
- ✓ Will not harm pigeons, pets or other wildlife
- ✓ Prevents egg fertilization and is completely reversible
- ✓ No secondary hazard to raptors
- ✓ Economical automatic feeders
- ✓ Reduces the pigeon population by 90 to 95%

*It's "Planned Pigeonhood™"*

# Urban Feeder

- ✓ Designed for ground installation
- ✓ Heavy-duty steel exterior construction
- ✓ Discreet design that blends into surroundings
- ✓ 30 degree directional distribution pattern
- ✓ Galvanized steel internal hopper with 45 pound capacity
- ✓ Ideal for parks, campuses and urban areas, or where a flat rooftop is not available

# Tripod Feeder Kit

- ✓ Automatic feeder with 360° broadcast footprint
- ✓ Up to 35 ft. throw radius; feeds up to 150 birds
- ✓ Holds 130 pounds of bait
- ✓ Programmable, digital timer and controller
- ✓ Lightweight - easy to assemble (no tools required)
- ✓ Solar charger and rechargeable battery included

# Pigeon Control Without Dead or Dying Birds!
