

Adding Cool New Fonts to Your Embrilliance Essentials Video On Our App Dated 7/6/21

We purchased our new fonts from:
Designsbyjuju.com and rivermillembroidery.com

Make a folder on your computer to save your BX Font files:
Right Click on Start
Click on File Explorer
Find C: and click on it once to highlight
Right Click on C:
Click on New Folder
Type BX Fonts (I named it Rachel Font in the video)
Enter

Open Email
Find your confirming email
Download from there

OR Go to the site designsbyjuju.com Or rivermillembroidery.com
Find "My Orders"
Download from there

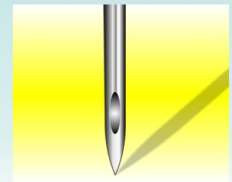

When you click to download a box will appear in the lower left corner of your screen.
Click on the down arrow in that box, then "show in folder".
Right click on the highlighted file.
Left Click on "Extract All"

Download the BX
Double click to unzip
Right Click to extract
Click on Browse
Click on the down arrow next to C:
Find your BX Font Folder and click on it
Select Folder
Extract
It will copy the items
Double click on the folder to open it

Open Embrilliance Essentials
Select all the fonts with the needle next to them by clicking and dragging a box around them.
Click and drag the highlighted fonts onto your Embrilliance Essentials screen.
If you dragged multiple fonts a screen will appear, just click OK

Now your new fonts will be listed right along with the built-in fonts.
