

Effective September 3, 2021 OPWDD's Incident Report and Management Application (IRMA) will display additional fields to be completed to assist OPWDD's tracking of the type of COVID-19 positive cases occurring in OPWDD certified residential sites.

The criteria for reporting of COVID-19 positive or presumed positive cases remains the same. However, for cases reported on or after **August 01, 2021**, IRMA has been modified with additional fields so that providers of certified residential sites will enter vaccination information on the COVID-19 Individual and Staff Forms in IRMA.

Providers of certified residential sites are required to enter the following additional fields of data on the COVID-19 Individual and Staff Forms when there is a new **presumed positive** or **positive test** for COVID-19 infection for an individual or staff in a certified residential site. This includes:

- All ICFs
- All IRAs
- All Community Residences
- All Developmental Centers
- All Residential Schools
- All Specialty Hospitals
- All Family Care Homes

1. Was the individual vaccinated? Yes or No. If no, no further questions will populate.

OR

Was the staff vaccinated? Yes, No, or Unknown. If no or unknown, no further questions will populate.

- If yes, select vaccine type (drop down): Johnson and Johnson, Pfizer or Moderna
 - If Johnson and Johnson, enter date of last vaccination.
 - If Pfizer or Moderna, did the individual receive two doses? Yes or No. If no, questions stop since full vaccination is required by the CDC.
 - If yes, enter the date of last vaccination.

2. Did the individual/staff receive a booster (Yes or No)?

- If yes, enter the date of the last vaccination.

If a COVID-19 Event/Situation that was reported on or after August 1, 2021 has since been closed at the time of the issuance of this information, the Event/Situation will need to be reopened to provide responses to the questions above. Please contact your respective Incident Compliance Officer in OPWDD's Incident Management Unit at 518-473-7032 to reopen a closed COVID-19 Event/Situation, as appropriate.
